Principal

PATRICK GUSTAFSON

Assistant Principal

May 4, 2016

Parents of Regional School District 13 Students,

On Wednesday, May 11th, Coginchaug Regional High School will be teaming up with the State Police, the Durham and Middlefield Fire and Ambulance Departments and Life Star to provide a mock crash assembly to our juniors and seniors.

As part of the mock crash, emergency personnel will be called to the high school between the hours of 9:00 a.m. and 10:30 a.m., to simulate a car accident. The crash will be set up on Pickett Lane adjacent to the tennis courts.

Our goal in providing this real-life simulation to our students is to demonstrate the importance of wearing your seatbelt, not texting while driving and not driving under the influence. Our hope is that the mock crash will help our students be safe this prom and graduation season by influencing them to make responsible decisions as drivers and passengers in vehicles.

On behalf of the Coginchaug Regional High School Community, I would like to thank all of the community members, staff, students and organizations who have volunteered their time in the best interest of student safety. If you have any questions with regard to the mock crash, then please call the main office at Coginchaug at (860)349-7215.

Sincerely,

Brian Falcone

Principal
